

📌 MILESTONE 1 – USER REGISTRATION & ACCOUNT SETUP

Objective:

Enable structured onboarding for both Sellers and Customers, including secure data collection and verification.

Features:

1. Registration System

- Users can select account type: **Seller** or **Customer** (via checkbox).
- Dynamic form fields based on account type.
- Visual layout reference: “*SUBSCRIBE*” screen.

Seller Fields:

- Full Name*
- Business Name*
- Category Selection (SPORTS CENTERS / FREELANCER)
- Subcategory Dropdown (up to 3 selections)*
- E-mail*, Country*, City*, Address, Zip Code*
- Add Credit Card* (first year free, €99/year renewal)

Customer Fields:

- Full Name*, Date of Birth*, E-mail*, Country*, City*, Zip Code*

☑ *All fields marked with * are mandatory.*

2. Registration Confirmation

- Automated confirmation email sent to new users.
- Email content differs for Seller vs Customer.
- Post-registration message prompts user to check inbox.

⚙️ MILESTONE 2 – SELLER DASHBOARD & CONTENT MANAGEMENT

Objective:

Enhance Seller experience with improved dashboard functionality, content tools, and notification systems.

Features:

1. Sellers must provide credit card info (first year free, then €99/year).
 - System tracks registration date and triggers renewal automatically.
 2. Automated renewal reminder sent **1 month before subscription ends**.
 3. Dashboard enhancements:
 - Add **notification icon** below chat icon for activity alerts (favorites, content interactions).
 4. Sellers can **switch to Customer mode** without logging out.
 5. Seller profile shows:
 - **Follower count** (auto-updated)
 - **Photo previews** (previous/next images in smaller size)
 - **Profile preview button** (as seen by customer)
 6. **Unlimited content uploads**.
 7. Sellers can post **photos** and **short videos (max 30 seconds)**.
-

MILESTONE 3 – GOOGLE CALENDAR INTEGRATION & BOOKING SYSTEM

Objective:

Introduce appointment scheduling and synchronization with Google Calendar for real-time availability and monetization.

Features:

1. Calendar Integration

- Sellers connect their **Google Calendar** accounts.
- Availability automatically synced — busy slots are hidden on FitScout.

2. Booking Settings

- Sellers define:
 - Service types
 - Duration
 - Pricing
- Ability to mark time slots as available/unavailable from dashboard.

3. Notifications

- When a booking occurs (via chat or direct):
 - Seller receives **in-platform + email notifications**.
 - Bookings are auto-added to their Google Calendar.

4. Booking Management Dashboard

- Dedicated “**Bookings**” section displaying:
 - Upcoming appointments
 - Status (Confirmed / Pending / Completed)
 - Quick link to customer chat

5. Customer-Side Booking Flow

1. Customers can view Seller’s live calendar availability.
2. They select a slot and confirm booking.
3. Receive confirmation via email + FitScout notification.
4. Optionally add the event to their own Google Calendar.
5. Booking through chat marks the event as “**chat booking**” in Seller dashboard.
